

STATEMENT REGARDING MEAL SUBSTITUTIONS OR MODIFICATIONS

The United States Department of Agriculture regulations require substitutions or modifications in school meals for children whose disabilities restrict their diets. If a physician or other licensed health-care provider determines that a child's food allergies may result in severe, life-threatening (anaphylactic) reactions, then the child's condition will meet the definition of a disability, and the prescribed substitutions must be made by the District. In order to do so, the school nutrition program must receive a signed statement by the physician or other licensed health-care provider containing the following information:

The child's food allergy that constitutes a disability: _____

An explanation of why the disability restricts the child's diet: _____

The major life activity affected by the disability: _____

The food(s) to be omitted from the child's diet: _____

The food or choice of foods that must be substituted: _____

Physician Information:

Name: _____

Address: _____

Phone Number: _____

Physician Signature: _____ Date: _____

For Office Use Only:

Date form was received by the school: _____

Student name: _____ Date of birth: _____

Grade: _____
